Schedule Your COVID-19 Test

Premier Health offers screening (nasal swab) testing at five locations throughout Southwest Ohio.

A physician's order is required at all locations.

Testing is available for people who are:

- Symptomatic: Currently have symptoms of COVID-19

- Preparing for a surgery or procedure and need a COVID-19 test before the procedure. This screening should take place 3 to 4 days prior to your surgery or procedure.

Which Testing Sites can I go to?

Do you have a Premier Physician Network Physician OR are having a procedure or surgery at a Premier Health facility?

If you answered **yes** to one of these questions, you can go to any of the testing sites.

Do you need COVID Testing, but are not affiliated with Premier Health in any way?

If you answered **yes** to this question, you can go to the OnMain location.

By Appointment Only

Schedule a visit: **PremierHealth.com/CovidTesting**

Dayton, OH 45409
Monday - Friday, 10 a.m. - 5 p.m.

Premier Health

Here's how we're partnering with you to ensure your safety and give you peace of mind:

Cover Your Nose and Mouth

To minimize the risk of exposure to yourself and others, anyone who enters our facilities is asked to **wear a face covering or mask**. If you are not able to bring a mask with you, we will give you one upon arrival. **All Premier Health staff members also will be wearing masks**.

Screening

For all services, COVID-19 **screening questions** will be asked **when you make an appointment**, **a day prior to the appointment**, and **upon arrival**. **Before entering** our facility, **everyone** will be screened (**temperature check** and a **few brief questions**).

Shorter Wait Times:

Patient **check-in** and **registration** will be **completed as quickly as possible** to reduce wait time. We are maintaining **social distancing** protocols in our waiting areas. You may notice new office procedures for waiting and check-in, such as distancing decals on floors.

Visitor Restrictions

For outpatient procedures, you may bring **one visitor or support person** with you if **social distancing** policies can be met. Patients younger than 18 years of age may have up to **2 visitors, but this is limited to only parents or guardians**.

Strict Cleaning Practices

All Premier Health facilities are utilizing **strict cleaning and sanitation practices**. All rooms are cleaned continually, and all **staff follow CDC guidelines** for hand hygiene and use of personal protective equipment (PPE).

IN AN EMERGENCY: Go to your local emergency room or call 911 immediately, as that is the safest way for you to get care in an emergent health situation.
